

Jeff Paul's Shortcuts to Internet Millions

<http://www.jeffpaul.tv/index.htm>

Report Card: **Fail**
Report Date: 11/18/2007
Subject/Grade: Section 508: 4 errors
W3C WCAG Priority 1: 3 Errors
W3C WCAG Priority 2: 1 Error
W3C WCAG Priority 3: 3 Errors
W3C HTML Standards: 41 errors
W3C CSS Standards: Passed, 0 Errors
Functional Accessibility: Partially or not implemented

This evaluation is part of a study on the structural sufficiency of commercial Internet web sites. The Jeff Paul's Shortcuts to Internet Millions web site does not meet web site structural sufficiency standards. Read more about 'structural sufficiency', the idea behind the concept at <http://www.simplyraydeen.com/>

Accessibility Issues

The lack of descriptive 'alt' attributes for images and image mapping makes the Jeff Paul's Shortcuts to Internet Millions web site difficult to navigate for screen reading software and for individuals who have images turned off. The use of image maps makes the site inaccessible for the blind as the current coding does not use the 'alt' attribute for each 'area' element. The web site should also provide alternative HTML-based content that describes the function of the Macromedia Flash (OBJECT) application for users who are unable to access it in its original form along with a link to the plug-in and download information.

A recent lawsuit against Target may establish the ways in which the Americans With Disabilities Act will apply to the Internet (refer to [Lawsuit – Class action case against US retailer Target](#))

Automated tools used to validate Jeff Paul's Shortcuts to Internet Millions web site accessibility: Cynthia Says, WebXact, The Wave, Functional Accessibility Evaluator

Industry Web Standards

W3C HTML Standards: The Jeff Paul's Shortcuts to Internet Millions web site DTD is coded as HTML 4.01 Transitional. W3C HTML automatic validation tools indicate that the web site is not valid HTML 4.01 Transitional – 41 errors.

W3C CSS Standards: The Jeff Paul's Shortcuts to Internet Millions web site passed with no errors or warnings.

Automated tools used to validate Jeff Paul's Shortcuts to Internet Millions web site standards: W3C HTML Markup Validation Services, W3C CSS Validation Services
